Roll Off Services Guidelines

- DO NOT load over rim of container.
- NO items protruding above rim of container.
- The following items are not allowed for disposal: dirt, concrete, brick, gravel, roofing material, and tires.
- Customer agrees to pay landfill disposal fees.
- CONTAINER must be placed on even, solid ground.
- NCSWA is not responsible for underground item Damage. (Septic, culverts, trenches, utility lines etc)
- NCSWA not responsible for rutting of ground surfaces.
- Customer is responsible for container location.
- NCSWA driver will determine if location meets safety and access criteria.
- Note: Delivery and servicing of container may be Delayed due to weather conditions.

I have read and initialed the above items and agree to its contents. _____ Date _____

Residential Commercial Community Clean up Other _____

Weight: Customer will not overload the roll-offs and if overloaded will be responsible for unloading roll-offs to legal weight. All citations paid by NCSWA due to over-weight filling of a roll-off will be charged back to the customer. Roll-offs are designed for gravity emptying by raising one end higher than the other end. If customer loads NCSWA container with waste that will not dump in accordance with the equipment's design, the container will be returned to Customer with waste still in it. The removal of such material will be Customer's responsibility and if not removed at the termination of this Agreement Customer will be billed for the removal of such material. (Examples of the type of material for which this additional labor costs will be incurred include the removal of dried cement, glue, pre-wash, residue, etc.) I agree to terms and conditions above and on reverse side of application.
